LOCK IT UP!

PROPERTY CRIME

A quick reference guide

We are committed to partnering with you
to keep our communities safe!

Criminals look for an opportunity with the lowest risk. **Don't make it easy!**

These **simple** preventative **steps** go a long way toward **reducing the frequency** of burglary and theft in our community.

 Do a home check to ensure all doors and windows properly lock

 Never leave doors or windows unlocked while you are away

 Consider installing motion-activated lighting and a security system to deter thieves

Keep shrubs and trees properly trimmed to increase visibility

 Consider installing security film on your windows

 Lock all side gates that provide access to your backyard

 Keep your garage door closed when you're not in or around the garage area

 Keep all outdoor storage areas, including those in carports, locked

One of the biggest deterrents to crime is an engaged community. Get to know your neighbors and **always immediately report** any unusual or suspicious behavior.

Emergency or Crime in Progress 9-1-1
